

---

## Summary

Self-motivated autodidact who understands how to find the necessary solutions to emerging problems. A conscientious and hardworking team player seeking to leverage Web Application Development skills.

## Technical Skills

---

Languages: JavaScript, Python, HTML, CSS, C#

Frameworks/Libraries: JQuery, Bootstrap, jinja2

Other: Git/GitHub, SQL, PostgreSQL

## Project Experiences

---

### Movie Trailer Website – ([GitHub](#))

September 2016

- Designed and developed a client-server interactive website to display a list of movie trailers and allow users to play a trailer by clicking on a poster of that trailer
- Used Python, Bootstrap, CSS3 to build robust server-side code which can handle 500K unique visitors simultaneously

### Portfolio Website – ([GitHub](#))

October 2016

- Planned and designed a website to display a personal portfolio website for a front-end web developer by following the mockup of the project's owner
- Implemented responsive HTML and image technology to develop a website that adapts to different web browsers on different devices such as desktops, laptops, tablets, and mobile phones

### Multi-User Blog – ([GitHub](#))

November 2016

- Created a fully interactive website which allows users to post, edit, delete, and comment on blog posts
- Used Google App Engine's datastore technology as the data storage and HTML frameworks such as bootstrap and jinja2 technology to render the webpage
- Produced a robust blog website that can handle millions posts every day and store terabytes of data (depending on the hosting plan of Google)

## Work Experiences

---

### Self - Software and Web Developer

Long Beach, CA | January 2010 to Present

Real Estate Assists App - [Windows App Store](#)

- Participated in the design process such as planning, writing, debugging, and testing application code, and developed UI and algorithm of application's functional requirements
- Used HTML, CSS, JavaScript, and Google Cloud to provide the most up to date technology for UI and storage.
- Received more than 300 downloads from Windows App Store

Real Estate Assists Website - [Website](#)

- Planned and developed a product display website by using free blogger.com as the hosting service
- Produced responsive website by using HTML, JavaScript, and bootstrap framework, which attracted more than 100K unique visitors in 3 years

## Education

---

Udacity - Full Stack Web Developer Nanodegree

September 2016 to Present

Colorado Technical University – Business Administration B.S

February 2007
